Welcome to Changing Lanes

Changing Lanes is a seven-book reading series for adult ESL literacy learners and can also be used in a low level ESL classroom as a supplementary reading and writing resource.

Changing Lanes was developed to address the need for relevant adult ESL literacy resources for both newcomers and instructors. The stories are about and for new immigrants who are still adjusting to a new life in Canada.

To the Teacher

Changing Lanes is a seven book ESL reading series. These books are essentially “stand-alone” and do not need to be taught in the order in which they are presented. The title indicates the theme of each story.

Book 1: Housing and Family Life “A Day at Razia’s Home”
Book 2: Getting Around: “Farid Takes the Bus”
Book 3: Dental Health: “Amela Goes to the Dentist”
Book 4: ESL in Schools: “Daniela Goes to School”
Book 5: Banking/Budgeting: “Fatima Goes to the Bank”
Book 6: Grocery Shopping: “Wahida is at the Supermarket”
Book 7: Dressing for the Weather: “From Liberia to Nova Scotia”

Changing Lanes has been aligned to the Canadian Language Benchmark ESL Literacy Phase 1 and 2.

The ESL Literacy Benchmarks lay out the progression of reading, writing and numeracy skills for ESL adults who have little or no literacy skills in their first language. The benchmarks are descriptors of what ESL Literacy students are able to do at various stages of their development.

Each book deals with one or more life skills, for example: dressing for winter, eating well, taking a bus etc.

Each book is divided into two components: reading material and learning activities.

Stories are authentic and personal. They are repetitive in structure with a high-frequency vocabulary.

The learning activities are designed to provide speaking, writing and reading comprehension practice.

The teacher introduces the chapter with a set of activities where new vocabulary is presented. As part of the introduction, students may be asked to fill in the missing letters and copy the words to practice writing.

The after-reading set of activities is designed to check comprehension and to make the story personally relevant.
Here are a few possibilities when supplementing this material:

1. Discuss the situations in the stories with the students: visit to the dentist, calling a superintendent etc.
   - what has been their experience?
   - write group or individual language experience stories
   - write in a journal

2. Cut out pictures from story or parts of the story:
   - sequencing
   - discuss what is happening in the pictures
   - retell the story
   - directionality

3. Cut and enlarge the pictures:
   - match sentences to the pictures from the story
   - sequencing
   - match to reading by teacher or taped story (individual or group)

4. Cut sentences into words:
   - create awareness/stress words as parts that make up a sentence
   - create awareness/stress words as different parts of sentence: adjective, pronoun etc.
   - word order
   - recreate the sentence recognizing meaning of words/what is happening in the picture
   - spacing between words
   - punctuation, capitalization
   - change sentences by adding words not in the story: adjectives, pronouns, etc.

5. Read/write /fill in the blanks:
   - note to superintendent
   - grocery shopping lists
   - hours of business
   - card for dental appointment
   - personal information on form for dentist, etc.

6. Use high frequency words from one story or accumulate from series:
   - Bingo
   - enlarge to font 72, cut out and use pocket chart to review all vocabulary before reading each time

7. Use scenarios to discuss emotions/feelings

8. Use to teach instructions: read, circle, underline, copy, fill in, match, etc.

Have fun!
